

# IRELAND

CMS missionaries work in Ireland with children just like you! And not only children, but also people who teach children in churches all around the north of the country. Just like St Patrick who came to Ireland years ago. CMS missionaries get to teach that our one God is Father, Son and Holy Spirit; and he loves us!

## ACTIVITY

There are no wild snakes in Ireland. This is because the ocean has stopped many animals, which are common on mainland Europe, from reaching the island. Can you help these snakes untangle themselves by colouring them in different colours?

### Did you know?

The longest place name in Ireland is Muckanagherdauhaulia. It is a small town in the hilly and green county Galway and translates to "ridge, shaped like a pig's back, between two expanses of briny water".

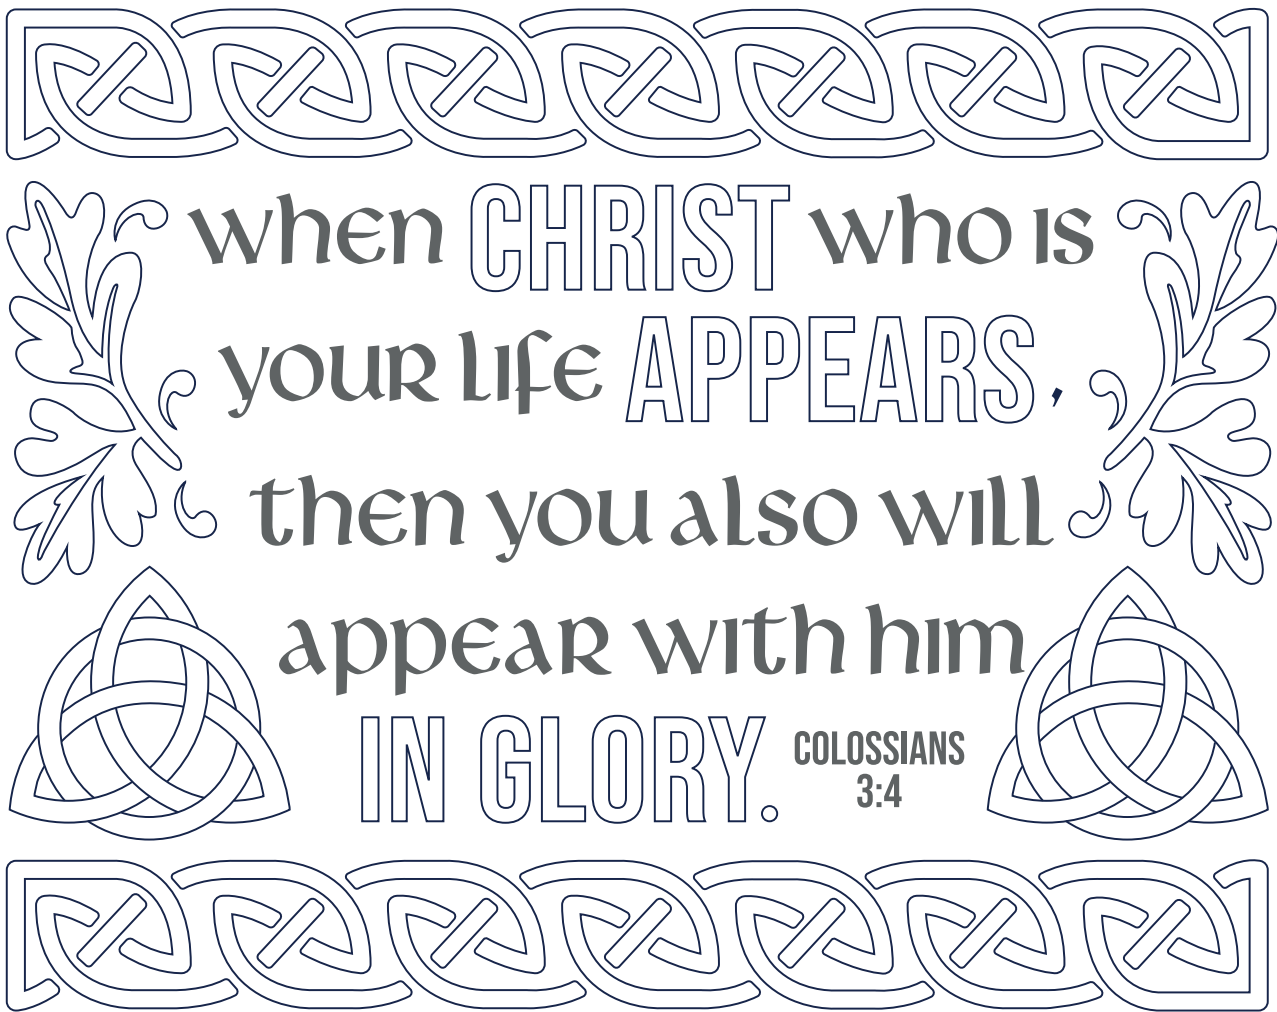

### Fun fact:

St Patrick's day is celebrated in Ireland on March 17.

**BIBLE CHALLENGE**

In Celtic art, a Celtic knot is a series of overlapping or interwoven knots which have no clear start or end. Focus on the words of Colossians 3:4 while you colour in the artwork.

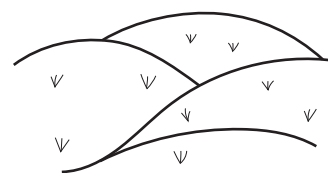

**TIP:** READ THE WHOLE CHAPTER IN THE BIBLE TO GET THE FULL STORY

**PRAY****Thank God**

for children in Ireland who want to know more about Jesus.

**Ask God**

that all the children's teachers here will love and trust Jesus each day.

Colour these hills in, using a bright green!

Whenever you see **green hills**, pray for Ireland!
